

Book-Hooks Installation Instructions

Supplies included: two drywall anchors* , two 2" screws

Equipment needed: Phillips screwdriver or cordless screw driver, level

Read instructions before beginning. Attachment holes are 16" apart.

* If installing on wall other than drywall, use appropriate fastener.

1. Place Book-Hooks on wall at desired location. Use level to be sure the Book-Hooks are level.
2. Use 2" screw or other long skinny tool to mark both hole locations on wall.

Check if a stud is behind the wall at the marked locations. Tap lightly or use a stud finder.

If no stud is present, install drywall anchors...

3. Install drywall anchor with screwdriver. (see instructions below)
4. Attach Book-Hooks with two 2" screws (provided) into drywall anchor.

If stud is present, do NOT use drywall anchors...

3. Attach Book-Hooks with two 2" screws (provided) directly into studs at desired location.

Drywall Anchor Installation Instructions

1. Using #2 Phillips screwdriver, press anchor tip slightly into drywall. Applying pressure, turn anchor until flush with drywall. Do not over-tighten.

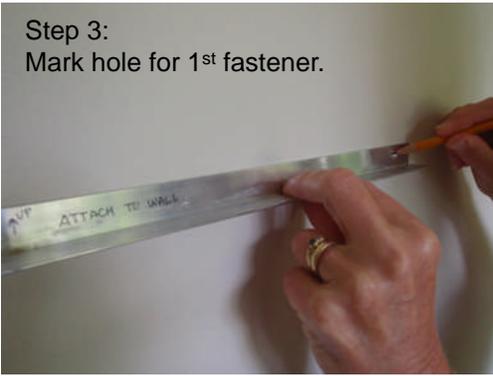

2. Insert screw through item to be hung and turn into anchor.

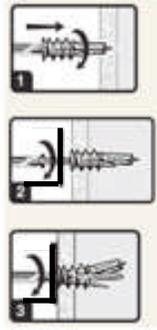

3. Anchor will "click" once when the screw is halfway in to indicate that the anchor is secure. Continue tightening until flush..

Properly installed, the Book-Hooks holds up to 50 pounds.

Step 3:
Mark hole for 1st fastener.

Step 4: Drywall Anchor Installation Instructions

1. Using #2 Phillips screwdriver, press anchor tip slightly into drywall. Applying pressure, turn anchor until flush with drywall. Do not over-tighten.
2. Insert screw through item to be hung and turn into anchor.
3. Anchor will "click" once when the screw is halfway in to indicate that the anchor is secure. Continue tightening until flush..

Step 5:
Attach angle bar with 1st fastener.

Step 6:
Level angle bar and mark hole for 2nd fastener.

Step 8:
Fasten Book-Shelf to angle bar with wood screws.
